

# TARLETON STATE UNIVERSITY: TERRELL SCHOOL OF CLINICAL LABORATORY SCIENCE

## The Vision

Create a Unique Center of Learning that offers Nationally Recognized Programs of Excellence and provides comprehensive educational opportunities in all areas of Laboratory Medicine with supportive transitions among the recognized professional levels of practice and certification.

## The Mission

The Mission of the Department of Clinical Laboratory Science is to provide medical laboratory professionals to meet laboratory workforce needs of the North and Central Texas regions and to provide educational opportunities of excellence for students enrolled in our programs, in order that they may excel and grow in their chosen careers.

## The Plan

*Envision 125 student utilizing this center on a weekly basis*

### The Master of Science of Medical Laboratory Science

With emphasis areas to support specialist certification options in the advanced practice areas in Laboratory Medicine (Molecular Pathology, Cytogenetics, Laboratory Management and other specialized areas), and to prepare faculty for medical laboratory programs across the nation.

*Target date: Fall 2005*

↑

The **Bachelor of Science in Clinical Laboratory Science** with Certification in Medical Technology and the Bachelor of Applied Science in Clinical Laboratory Science

*Current Programs*

↑

The **Bachelor of Science in Medical Laboratory Science** with Histotechnologist (HTL) and Cytotechnologist (CT) options, and the Bachelor of Applied Science in Medical Laboratory Science

*Target Date: Fall 2006*

↑

The **Associate of Applied Science in Medical Laboratory Technology** with certification as a Medical Laboratory Technician (MLT)

*Starting Fall 2004*

↑

The **Associate of Applied Science in Histotechnology** with certification as a Histotechnologist (HT)

*Starting Fall 2004*
